REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Chichester School Board and the Citizens of Chichester:

Once more it is my pleasure and privilege to report to you concerning your school activities and general conditions of your school.

Several changes have occurred during the past year. Among the most important of these is change in personnel. Miss Winona Walker was elected to replace Mr. Clayton Knox as principal. Also Mrs. Marjorie Lawton replaced Mrs. Nellie Frost, and Mr. Peter White was selected to replace Mrs. Rebecca Makin. These changes have made for some differences in administrative procedures.

The schools are now operating on a somewhat different plan than previously. Each teacher now has two grades to teach, instead of some having three grades while others had split-grade combinations. The new arrangement, with each teacher having all of the pupils in a two-grade combination tends toward more efficient teaching. There is no overloading of classes, and pupils of the same general level of accomplishment are grouped together.

The morale of the school is good, the discipline has definitely improved; and this is commendable.

One thing I would like to mention is the fact that there is a real need for some type of educational guidance, especially at the upper student level. In this day and age almost every child who completes the elementary grades plans to attend high school. Now it is a recognized fact that with all children applying for admission to high school, there is a great need for emphasis to be placed upon the quality of performance of the pupils in the seventh and eighth grades especially, and in fact for pupils of all grades. The basic fundamentals

of reading, writing and arithmetic, science and the social studies must be given a great deal of attention. Teaching must be thorough, standards must be established and maintained all along the line. Because of the wide differences existing among individual pupils, in intelligence, in aptitudes, in interests as well as in environment, there is consequently a great responsibility resting upon teachers and parents to try to analyze each child, learn of his interests, discover his aptitudes and measure, as far as possible, his intelligence and general capacity for secondary training. For a long time the school officials have been making such analyses through the medium of tests, interviews and through the child's general behavior pattern. Once these facts are known, the teachers are in a reasonably good position to recommend the type of work that the child should pursue at the high school level. They should talk with the parents about the child and together help to guide the child in choices of subject matter for high school courses.

Many children should be guided into other courses than the college preparatory course. College preparatory work presumes to train students for professional preparation and requires a high degree of intellectual ability. Other courses at the high school level today are frequently much more suitable for a large percentage of our youth. School officials, and especially teachers, knowing this have a responsibility to advise and guide pupils in their choice of subject matter at all levels of learning. This is one of the most important contributions teachers can make toward the education of the youth of our land. To some extent this is being done in your local school; more of it could and should be done here, and in fact, in all schools.

I am pleased with the extension of recreational activities going on in your school this year. There should be a program of such activities which enriches the lives of children. Such activities need to be well planned

and especially well supervised and kept in balance with the educational activities of the more formal work.

Your teachers are to be commended for their interest in the performance of duties assigned and especially for their interest in the individual children. It is so necessary to have teachers who like their work and whose basic purposes are to be of help both to the pupils and the community.

In closing, I want to express my thanks to my very helpful school committee, to all teachers and to the citizens of the community for their loyal aid and support.

Respectfully submitted,

WILLIAM B. HOUNSELL,
Superintendent of Schools
